**Manufactured and Distributed  
By**

**General Sheet Metal Works Inc.**  
7374 Central Industrial Dr. # 3  
Riviera Beach, Florida 33404-3448  
Palm Beach County  
Phone: 561-844-6611  
Fax: 561-863-6146

### **Why this Launching System?**

The **Water Rocket Launching System** was designed as an educational tool that teachers can enjoy hands on learning activities in or out of the classroom. Students can learn how to Plan, Design, Assemble and Launch Water Rockets using a 2-Liter plastic soda bottle as the only pressure vessel to propel the rocket.

College Professors, Teachers and Students of all grade levels can use rocketry to better understand and apply the following principles; **Mathematics, Science, Technology & Team Building.**

### **How the Launch system operates?**

The **Water Rocket Launching System** is a self-contained unit that operates on compressed air and water to pressurize and propel the rockets into the air. Each Launch System contains a easy to use;

- \* **Launch Control Panel**-with functional air pressure gage, regulator & launch button.

- \* **Rocker Launcher**- adjustable settings.
- \* **All Air Hose & connectors.**
